About BOSS

Who is BOSS and what are our activitiesHistory

BOSS, Building Organisation Student Society, is established in 1993 by students as a student society of the department Real Estate & Housing of the Technical University Delft. We intend to inform students about education and bringing the students in contact with companies.

BOSS has around 250 members. Yearly, a part of the members participate in a commission to organize interesting and unique activities. The enthusiasm of the students becomes clear in these successful activities.
